RFP? Sole sourcing? Let us show you what we can do and you'll be blown away by our product AND our company.

Streamlyne Research is the only comprehensive eRA software that takes research administration to new heights. With interconnected modules, cloud-based security, and industry-leading uptime, your organization will experience immediate benefits by adopting Streamlyne Research.

## Proposals and tracking in one comprehensive system

### Comprehensive tracking of funding and implementation

## Regulations fulfilled above standard requirements

Actionable insights delivered on demand around the clock

Custom syncing between modules and external systems

We will gladly go head-to-head with any competitor to show you why Streamlyne Research has become the trusted eRA of many leading research programs.

Ask us for a custom tailored demo based on the needs of your own research program, and we'll show you what Streamlyne Research can do for you! Here are just a few of the popular features and enhancements we've made available to Streamlyne Research users recently:

- 
- UI by YOU  
Custom user interface configurations
